Pentagon 9/11 Alfred Goldberg, 2007-09-05 The most comprehensive account to date of the 9/11 attack on the Pentagon and aftermath, this volume includes unprecedented details on the impact on the Pentagon building and personnel and the scope of the rescue, recovery, and caregiving effort. It features 32 pages of photographs and more than a dozen diagrams and illustrations not previously available.

A Bull of a Man John Powers, 2009-06-19 The androgynous, asexual Buddha of contemporary popular imagination stands in stark contrast to the muscular, virile, and sensual figure presented in Indian Buddhist texts. In early Buddhist literature and art, the Buddha's perfect physique and sexual prowess are important components of his legend as the world's "ultimate man." He is both the scholarly, religiously inclined brahman and the warrior ruler who excels in martial arts, athletic pursuits, and sexual exploits. The Buddha effortlessly performs these dual roles, combining his society's norms for ideal manhood and creating a powerful image taken up by later followers in promoting their tradition in a hotly contested religious marketplace. In this groundbreaking study of previously unexplored aspects of the early Buddhist tradition, John Powers skillfully adapts methodological approaches from European and North American historiography to the study of early Buddhist literature, art, and iconography, highlighting aspects of the tradition that have been surprisingly invisible in earlier scholarship. The book focuses on the figure of the Buddha and his monastic followers to show how they were constructed as paragons of masculinity, whose powerful bodies and compelling sexuality attracted women, elicited admiration from men, and convinced skeptics of their spiritual attainments.

[The Global Economic Crisis and the Developing World](#) Ashwini Deshpande,Keith Nurse,2012-06-14 The world economy is currently in the throes of a global economic crisis reminiscent of the great depressions of the 1930s and the 1870s. As back then, the crisis has exposed the major structural imbalances in financial and credit markets in addition to global trade forcing many governments, developed and developing, to impose debilitating austerity measures that are exacerbating the structural weaknesses that caused the crisis in the first place. This volume offers historical insights into the origins of the contemporary crisis as well as detailed analyses of the financial and trade dimensions, an assessment of the technological and innovation context along with perspectives on the implications for unemployment and gender imbalances.
